

NOURHAN SHAABAAAN

JUNIOR WEB DEVELOPER

Cairo , Egypt | 01212746278 | nourhanshabaanmohamed@gmail.com | [linkedin.com/in/nourhanshabaanmohamed](https://www.linkedin.com/in/nourhanshabaanmohamed) | github.com/Nourhan-Shabaan

CAREER OBJECTIVE

Computer Science & Statistics Student and NTI Front-End Trainee , Proficient in HTML5, CSS3, JavaScript (ES6), and Bootstrap for building responsive and interactive web interfaces. Familiar with Python and C++ programming languages, with experience in solving algorithmic and programming problems. Practiced problem-solving and improved programming skills through solving various coding challenges and exercises.

volunteering experience

instructor & Mentor - HTML & CSS Camp

Nov 2025 - Present

- Led and mentored students during the HTML & CSS Camp training program.
- Delivered instructional sessions covering HTML, CSS fundamentals, and web development concepts.
- Supported learners through technical guidance, code explanations, and hands-on practice.
- Contributed to organizing and supervising the training program as part of the Masaar Team.

EDUCATION

B.Sc. in Computer Science & Statistics

2024 – Present

Sohag University — Faculty of Science

- Relevant Coursework: Data Structures, Object-Oriented Programming (OOP), Algorithms, Probability & Statistics, Front-End Web Development (HTML5, CSS3, JavaScript ES6, Bootstrap)

INTERNSHIP

Frontend Development Trainee — National Telecommunication Institute (NTI)

Jan 2026 – Mar 2026

- Gained practical experience in building responsive web interfaces using HTML5, CSS3, JavaScript (ES6), and Bootstrap.
- Implemented multiple frontend projects focusing on responsive design, UI components, and client-side functionality.
- Applied JavaScript concepts including DOM manipulation, events, and dynamic content handling.
- Improved debugging and problem-solving skills through hands-on assignments and project-based learning.

PROJECTS

- 1- Car Showroom Website | HTML, CSS, JavaScript
 - Developed a responsive car showroom website using HTML, CSS, and JavaScript.
 - Implemented interactive UI components and ensured a responsive design across different screen sizes.
- 2- Full-Stack Library Management System | Front-End, Back-End, Database
 - Developed a complete full-stack library management system with a database, backend, and frontend.
 - Implemented role-based authentication and authorization with different access levels for admins, users, and authors.
 - Enabled authors to add books and manage their content through a dashboard.
- 3- Skincare Products Website | HTML, CSS, JavaScript
 - Built a dynamic skincare products website using HTML, CSS, and JavaScript.
 - Implemented interactive features and dynamic content handling.
- 4- Online Coding Challenge Platform | HTML, CSS, JavaScript
 - Developed a coding challenge page inspired by platforms like LeetCode.
 - Created an interactive interface for solving programming problems and displaying challenges.
 - Designed a user-friendly layout to enhance the problem-solving experience.
